Subject index

Key: c = correspondence; e = editorial; r = review article; S = supplement

A

Acute renal failure
  a third-world solution for oral rehydration therapy 53
    in chloroquine-resistant falciparum malaria 177
Acute respiratory distress syndrome(ARDS)
  associated with toxic epidermal necrolysis 42
  experimental (rabbits) aspiration-induced: effects of PEEP 112
  following acute lithium carbonate intoxication 123
  following intravenous xylene poisoning 377
Acute respiratory failure
  CPAP vs IMPRV in acute respiratory failure 69
  effect of PEEP in aspiration-induced lung injury (rabbits) 112
  intrathoracic blood volume in patients on MV 142
  Round table conference on ventilatory failure 190
Adrenocorticol function
  as indicator of severity disease 93
  improvement of septic shock with cortisol therapy 318c
Airway pressure
  comparison of CPPV, HFJV, APRV in experimental lung injury (pigs) 299
  evaluation with a fiberoptic system 405
  open up the lung and keep it open 319e
  randomized study of five ventilatory modes in a piglet model of acute lung injury 339
Alkalosis
  hypocapnic: systemic vasomotor interaction with nicardipine 89
Amiodarone
  low dose toxicity in a patient with pneumonectomy 422
  pulmonary toxicity 388e
Anesthetics
  antimicrobial activity of local anaesthetics 380c
Antibiotics
  ciprofloxacin levels during haemodiafiltration 437
  clearance of imipenem/cilastatin in CAVHD 282
  effects of SDD on enterococcal colonization 459
  failure of thiamphenicol in listeria meningoencephalitis 485
  gentamicin volume of distribution 60c
  risk of cardiac arrhythmia during intravenous erythromicin 469
Arsenic
  poisoning – effect of hemodialysis and dimercaprol 47
Atropine
  continuous infusion in management of severe tetanus 26

B

Barotrauma
  is volutrauma: which volume is responsible ? 139e
Blood volume
  intrathoracic: measurement in clinical practice 137e
Brain death
  cerebral perfusion determined by ^{99m}Tc-HMPAO 76
  hemodynamic response to noxious stimuli 493
  jugular bulb catheterization for diagnosis of 59c
  not awake, not asleep, not dead ? 67e
  result of four investigations in 50 brain dead patients 82
  timing of apnea testing in brain stem lesion 315
Breathing
  pattern analysis 193e
Broncho-alveolar lavage (BAL)
  BAL induces sepsis-like systemic effects 6
  use for diagnosis of fat embolism 59c
Bronchoconstriction
  diaphoresis in differential diagnosis of acute respiratory distress 443c
  effect of postoperative sedation in patients with hyperreactive airway disease 45, 498c
Bronchoscopy
  in the ICU 160r

C

Calcium
  acute hypercalcemia – interference with lipids 131c
  plasma ionized calcium and blood lactate concentration 286
Calcium-channel blockers
  vasomotor interaction between nicardipine and hypocapnic alkalosis 89
Candida
  right atrial fungal thrombosis complicatory central venous catheterization 375
Cardiac arrest
  CPR in paediatric intensive care patients 109
    early prediction of survival – a word of caution 11
    hyperthermia following cardiac arrest 443c
Cardiac arrhythmia
  risk related to intravenous erythromycin 469
  ventricular fibrillation following chloroquine poisoning in child 170
Cardiac surgery
  influence of phosphodiesterase inhibitors on platelet function 449
  measurement of oxygen consumption by indirect calorimetry 206
Cardiopulmonary bypass
  transpulmonary gradient of type III procollagen peptides 290
Catecholamines
  peripheral gangrene associated with noradrenaline 433
Central venous catheters
  and fungal right atrial thrombosis in a child 375
  checking catheter placement 381c
  electron-microscopic examination of catheter tips 464
Cerebral blood flow
  and consumption in COPD patients on MV 455
  disturbance of autoregulation after schemia 252c
  ^{99m}Tc-HMPAO scintigraphy in brain death, vegetative state and coma 76
Cholecystitis
  acalculous, diagnosis of gallbladder perforation 245
Coagulation
  influence of phosphodiesterase inhibitors on platelet function 449
  protein C and S deficiency in infectious purpura 202
Collagen
  lung procollagen peptides: transpulmonary gradient 290
Coma
  cerebral perfusion assessed by ^{99m}Tc-HMPAO scintigraphy 76
Conference Reports
  Consensus
    reporting on consensus 135e
    selective digestive decontamination in ICU patients 182
    the first ESICM consensus conference: introduction 180
  Round table conference
    on ventilatory failure 190
Continuous positive airway pressure (CPAP)
  vs. IMPRV in acute repiratory failure 69
  effect of CPAP level and endotracheal tube size on inspiratory work 148
  via face mask in patients with HIV infections and P. carinii pneumonia 155

D
Diabetic ketoacidosis
effects of inorganic phosphates on Hb oxygen affinity 222
Diarrhea
oral rehydration therapy in intensive care 53
Differential ventilation
hemodynamic effects of selective PEEP after acid-aspiration (dogs) 356
in unilateral refractory atelectasis 479
Disseminated intravascular coagulation
protein C and S deficiency in infectious purpura of children 202
Doppler ultrasonography
in 50 brain dead patients 82

E
Eclampsia
and Hellp syndrome – maternal-fetal outcome 274
Endotoxemia
reactivity of pulmonary capillary segments after recurrent endotoxemic challenge 293
Endotracheal tube
effects of tube size and CPAP level on inspiratory work 148
ESICM
consensus conference report: selective decontamination 182
Evoked potentials
brainstem in brain dead patients 82
Extracorporeal membrane oxygenation
aprotinin in hemorrhagic complication of $ECCO_2R$ 364
pulmonary and hemodynamic effects of prostacyclin (cats) 118
Extravascular lung water
intrathoracic blood volume in patients on MV 142

F
Fat embolism
usefulness of BAL 59c
Free radicals
scavengers and protection against erosive gastritis 61c

H
Heat and moisture exchangers
comparison of 4 ventilator circuit filters 264
comparison with heated humidifiers during prolonged MV 97
Hellp syndrome
and eclampsia – maternal and fetal outcome 274
Hemodiafiltration
ciprofloxacin levels during 437
clearance of imipenem/cilastatin in CAVHD 282
Hemodialysis
and dimercaprol-effects on arsenic kinetics during massive poisoning 47
Hemofiltration
continuous CAVH in multiple organ failure 334
improves right ventricular function in endotoxic shock in pigs 235
Hemolysis
and clostridial sepsis 486
Hemorrhage
aprotinin in hemorrhagic complication of $ECCO_2R$ 364
HIV infection
management of P. carinii pneumonia with CPAP via face mask or MV 155

I
ICU
Outcome
adrenocortical function as indicator of severity of disease 93
Apache II in liver transplant recipients 60c
of CPR in paediatric ICU patients 109
Psychological problems in family members of traumatized patients 278
Infections
Aeromonas hydrophila myonecrosis 172
clostridial sepsis with massive hemolysis 486
failure of thiamphenicol in listeria meningoencephalitis 485
hyperthermia following cardiac arrest 443c
Legionnaire's disease and rhabdomyolysis 132c
mediastinitis due to *N. asteroides* after cardiac transplantation 127
meningoencephalitis due to penicillin-resistant *S. pneumoniae* 56
primary pseudomonas pneumonia 430
protein C and S deficiency in purpura fulminans in children 202
spread of methicillin-resistant *S. aureus* in exfoliative dermatitis 189c
staphylococcal septicemia and meningoencephalitis with acute myocardial infarction 247
streptococcal toxic shock syndrome in children 175
Intestinal permeability
alterations in critically ill patients 38
Intoxication
acute myocardial infarction after cocaine abuse 379c
carbon monoxide: value of MRI 371
ethylene glycol, with non cardiogenic pulmonary edema 250
intravenous xylene poisoning 377
massive arsenic poisoning-effect of hemodialysis and dimercaprol 47
methanol poisoning 391r
severe digitoxin intoxication treated with Fab antibodies 439
ventricular fibrillation in trivial chloroquine overdose in a child 170
with lithium carbonate and ARDS 123
with theophylline causing rhabdomyolysis 129

L
Lactic acidosis
plasma ionized calcium and blood lactate concentrations 286
Lactulose
to Mannitol absorption ratio to assess intestinal permeability 38
Lung volume
increase during extrinsic PEEP in patients with auto PEEP 269
indicator gas injector for wash-out tests 304
open up the lung and keep it open 319e
randomized study of 5 ventilatory modes in acute lung injury (pigs) 339

M
Magnetic resonance imaging (MRI)
use in acute carbon monoxide poisoning 371
Malaria
falciparum, with acute renal failure 177
Mechanical Ventilation (MV)
a fiber optic system for evaluation of airway pressure 405
Bradycardia after endotracheal tube disconnection 253c
cerebral blow flow in COPD patients 455
comparison of 4 ventilator circuit filters 264
comparison of CPPV, HFJV, and APRV in experimental lung injury in pigs 299
continuous flow modification of Servo 900c ventilator 444
CPAP vs. IMPRV in acute respiratory failure 69
effect of PEEP in aspiration induced lung injury in rabbits 112
heat and moisture exchangers vs. heated humidifiers 97
in acute respiratory failure: the unthinkable 317c
increase in lung volume with extrinsic PEEP 269
Indexes of weaning for MV 327
intermittent mandatory airway pressure release ventilation 65e
intrathoracic blood volume in patients on MV 142
Lung volume measurement by wash out test during MV 304
Open up the lung and keep it open 319e
randomized study of 5 different ventilatory modes in acute lung injury (piglets) 339
Round table conference on ventilatory failure 190
Ventilators: test of 20 similar ventilators in daily use conditions 32
vs. CPAP for management of *P. carinii* pneumonia 155

Meningitis
and staphylococcal septicemia with acute myocardial infarction 247
due to penicillin-resistant *S. pneumoniae* 56
Listeria: failure of thiamphenicol in penicillin-allergic patient 485
straphylococcal, with myocardial infarction 247
Multiple organ system failure (MOSF)
CAVH and respiratory function 334
medium molecular weight pentastarch reduces OSF in a porcine sepsis model 348
Myocardial infarction
after cocaine abuse 379c
Myonecrosis
caused by *Aeromonas* hydrophila 172

N
Naloxone
Reversal of neurologic deficit 362
Nosocomial infections
Pneumonia
Diagnosis: BAL produces sepsis-like systemic effects 6
Prevention and treatment
Antibiotic therapy S28
Diagnosis in ICU patients S10
Epidemiology and infection control S3
Introduction S1
perspectives in immunological therapies S35
Prevention by SDD S18
Systemic and endotracheal prophylaxis S24
Prevention: role of subglottic secretion drainage and stress ulcer prophylaxis 20
Role of digestive decontamination in SDD regimen 218
Uncertain relevance of gastric colonization 210
Diagnosis
value of blind brush in MV patients 410
Effect of SDD on enterococcal colonization 459
Prevention with SDD – a double blind study 398
Catheter
Right atrial fungal thrombosis complicating central venous catheterization 375
Nutrition
influence on neonatal respiratory muscle function 105r
medium chain triglycerides in patients with sepsis syndrome 231

O
Opioids
reversal of neurologic deficit with naloxone 362
Organ transplant
cardiac: mediastinitis due to N. asteroides 127
Liver: use of APACHE II scoring system 60c
Oxygen
Consumption
comparison between Fick's principle and indirect calorimetry 206
Saturation
central venous vs. mixed venous 101
effect of inorganic phosphates on Hb affinity 222
elevated with ruptured valsalva aneurysm 368
is mixed venous saturation reflected by central venous saturation? 386e
of hepatic vein: measurement with a new catheter 131c
P50 in critical illness 380c
pulse oxymetry in severe anemia 125

P
Pediatric Intensive Care
outcome of CPR in children 109
Plasmapheresis in therapy of neonatal hyperbilirubinaemia 373
Pharmacokinetics
ciproflaxin levels during VVHD 437
clearance of imipenem/cilastatin in CAVHD 282
Gentamicin volume of distribution 60c
Phosphates
effect of inorganic phosphates on Hb oxygen affinity 222
Plasmapheresis
treatment for neonatal hyperbilirubinaemia 373
Platelets
influence of phosphodiesterase inhibitors on platelet function 449
Pneumococci
meningoencephalitis due to penicillin-resistant *S. pneumoniae* 56
Positive-end-expiratory pressure (PEEP)
CPAP vs. IMPRV in acute respiratory failure 69
differential lung ventilation in unilateral refractory atelectasis 479
effect in experimental acid aspiration in rabbits 112
face mask CPAP or MV in *P. carinii* pneumonia 155
hemodynamic effect of selective PEEP after unilateral acid-aspiration (dogs) 356
increase in lung volume in patients with auto-PEEP 269
PEEP, ARDS and alveolar recruitment 383e
randomized study of 5 different ventilatory modes in model acute lung injury (piglets) 339
Pressure sores
air fluidized bed in Guillain-Barré syndrome 62c
Pressure support ventilation
in early weaning in patients without COPD 226
Pulmonary artery
bilateral pseudoaneurysm after blunt chest injury 51
capillary
reactivity to Angiotensin or free radicals after recurrent endotoxemic challenge 293
Pulmonary edema
non-cardiogenic, transient, following ethylene glycol ingestion 250

R
Rehydration
oral therapy in diarrhoea 53
Respiratory muscles
latent dystrophic myopathy and unsuccessful weaning 427
Respiratory muscles function
indexes of weaning from MV 327
influence of nutrition in neonates 105
myasthenia gravis and steroid-induced myopathy 424
Reyes'syndrome
revealing inborn errors of metabolism 445c
Rhabdomyolysis
and Legionnaire's disease 132
due to Theophylline toxicity 129
Right ventricle
function in endotoxic shock in pigs – improvement by hemofiltration 235
failure and elevated mixed venous oxygen saturation 368

S
Sedation
effect propofol on postoperative bronchoconstriction in hyperreactive airway disease 45, 498c
Isoflurane for prolonged sedation 415
treatment of severe tetanus with intrathecal baclofen 241
Selective digestive decontamination (SDD)
effect on enterococcal colonization 459
for prevention of nosocomial infection – a double blind study 398
for prevention of pneumonia S18
purgation therapy as an adjunct to SDD 252c
report of the ESICM consensus conference 182
role of gastric decontamination in SDD 218
Sepsis
detection with Tc-99m HMPAO labelled WBCs 15
severe sepsis, or sepsis syndrome: need for clarification 255e
streptococcal toxic shock symptome in children 175
Sepsis syndrome
diagnostic BAL produces sepsis-like systemic effects 6

effect of medium chain triglycerides on gap exchange 231
Severity scores
Apache II in liver transplant recipients 60c
Shock
Septic
improvement with cortisol replacement therapy 318c
medium molecular weight pentastarch and organ damage in a porcine model 348
Methylene blue increases systemic vascular resistance 309
Steroids
Myasthenia gravis and steroid-induced myopathy 424

T
Tetanus
treatment by intrathecal injection of baclofen 241
use of continuous atropine infusion in management of 26
Thrombolysis
contraindication in staphylococcal septicemia with acute myocardial infarction 247
Toxic epidermal necrolysis (Lyell syndrome)
associated with bronchopulmonary distress 42
more than „acute skin failure" 4e
Tracheostomy
surgical emphysema and HFJV via minitracheostomy 317c
Transfusion
role of blood microfilters 258r
Trauma
Chest: bilateral pseudoaneurysm following 51
unilateral pulmonary damage 445c

U
Ulcer
Stress-ulcer prophylaxis
and gastric alkalinization 1e
and nosocomial pneumonia: role of subglottic secretions drainage 20
uncertain relevance of gastric colonization 210
Ultrafiltration
progressive hypercalcemia during continuous UF 312

V
Ventilators
performance: testing of 20 ventilators in daily use conditions 32

W
Water
Total body water assessment by bioimpedance 322
Weaning
indexes predicting outcome of weaning 327
latent dystrophic myopathy causing unsuccessful weaning 427
pressure support ventilation in non-COPD patients 226
White blood cells
labelled with Tc-99m HMPAO for detection of occult sepsis 15
Work of breathing
effect of CPAP level and endotracheal tube size on inspiratory work 148
Wounds
Sternotomy support 189c
